

LIGHT & TRANSPARENCY

NEW COLLECTION

Born in Paris in november 27th 1973.

Before creating her furniture designing company Gcdk Design in 2004, Gwenaëlle Chassin de Kergommeaux worked 8 years in the broadcasting industry, in a documentary production firm in Paris in France.

While she feels the need to change professional life, eager to follow craftsmanship, she jumps into professional art and craft studies, between 2000 and 2004 (imitation wood and marble in painting, initiation to the lacquer, initiation to technical of wood).

In April 2005, Gwenaëlle opens her studio in Paris.

She initially focuses her scope of work on old furniture, with a large interest in its possibility to mix the history with contemporary lines. Using old pieces of furniture from the 20's to the 60's discovered in second-hand, she gets inspired by the lines until she manages to interact with the shapes while questioning it's function. The piece then becomes Object.

The furniture is fed with materials such as eggshells, faux-shagreens, gold leaves, silk. She re-thinks and gives a second life to the Object in order to create unique pieces.

In 2008, her husband, architect, Chinese's origine and Gwenaëlle decide to live in Beijing. She continues crossing identities between antiquity and modernity. Gwenaëlle combines therefore Chinese and French cultural heritage in her new creations on furnitures, paintings, fabrics and home accessories. The two cultural richness have since brought her great collaborations with different architects for decorations interiors - SHANGRILA HOTEL PARIS, NG-LAB BEIJING, AT-ZERO HONG-KONG, CARTIER SHANGHAI, PRAVDA ARCHITEKT PARIS.

Back in Paris in september 2019, his studio is based 1 rue Chana Orloff, district 19.

Since 3 years, Gwenaelle present her custom furnitures line focusing exclusively on the light and the transparency.

With faux-shagreen production's secret, Gwenaelle also controls the transparency of the material if she accentuate with lightings LED.

Faux-shagreen's Gwenaëlle produced by molding with a specially-designed version material. Featuring the pebbled look and feel of shagreen, her faux-shagreen are an animal-friendly version with all the style of the real skin. She joins designers who have turned to faux-shagreen in order to avoid pesky ethical dilemmas. Initially, Shagreen is the rough hide of a shark or ray.

With her secret production, Gwenaëlle can emphasis the specific grain of faux-shagreen, including its "pearl" symbol of this material without harming any sea creatures.

For this collection she propose 4 shapes of lights tables :

Oval in 1 size Cube in 4 sizes Cylinder in 5 sizes Sphere in 1 size

The surfaces of these lamps can be treated in different ways depending on the customer's choice. She offers 2mm thickness golden brass trays or a surface in eggshells crimbed by a brass wire or a 5mm thickness bronze-tinted mirror.

Others formats will be propose very soon. And this material will be declined on others surfaces such as screens, walls ...

CUBES LIGHT TABLES

Polyethylene cubes covered with faux-shagreen protection in varnish - Surface in golden brass, thickness 3mm or in eggshells inlays or in faux-shagreen. Light source Bulb LED E27 7W -Transparent Electric cable 1,80 m - Size : 30 x 30 x 30 cm & 40 x 40 x 40 cm

CUBES LIGHT TABLES

Polyethylene cubes covered with faux-shagreen protection in varnish - Surface in eggshells inlays crimbed by a brass wire. Light source Bulb LED E27 5W -Transparent Electric cable 1,80 m - Size : 20 x 20 x 20 cm & 25 x 25 x 25 cm

OVAL LIGHT TABLE

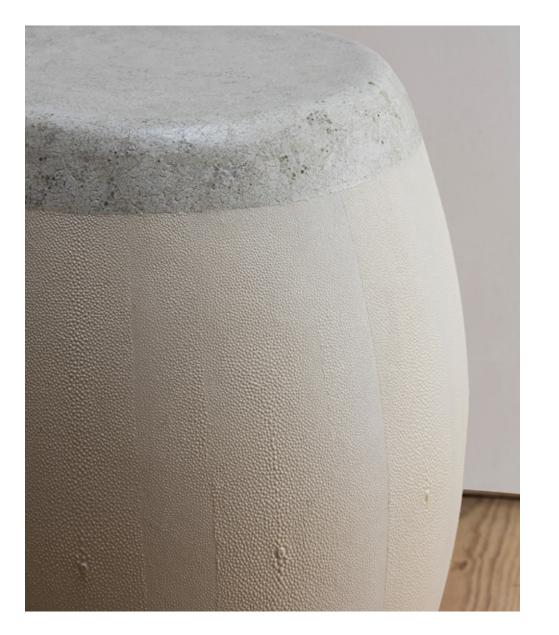

Polyethylene oval covered with faux-shagreen protection in varnish Surface in eggshells inlays

Light source : Bulb LED E27 9W -Transparent Electric cable 1,80 m

Size: 31 x 47 cm

Polyethylene sphere covered with faux-shagreen protection in varnish - Light source Bulb LED E27 13W -Transparent Electric cable 1,80 m - Size : 50 cm diameter

MOON LIGHT

COLUMN LAMP

Polyethylene cylinder covered with faux-shagreen protection in varnish Surface in golden brass, thickness 2mm or bronze-tinted mirror tray, thickness 5 mm or in faux-shagreen.

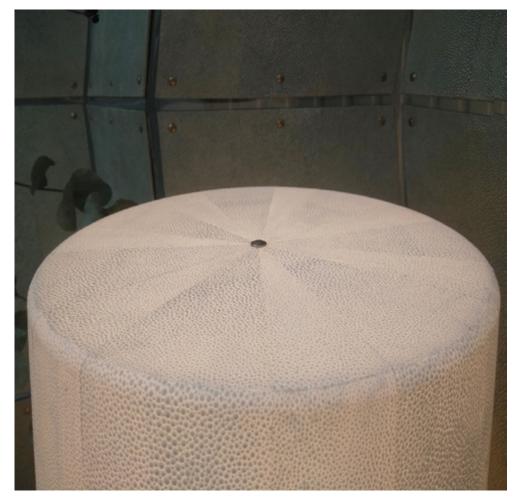

Light source Bulb LED E27 9W -Transparent Electric cable 1,80 m

Size: 25 x 70 cm & 25 x 100 cm

CYLINDER LIGHT TABLE

Polyethylene cylinder covered with faux-shagreen protection in varnish - Surface in golden brass, thickness 3mm or bronze-tinted mirror tray, thickness 5 mm or in faux-shageen.

Light source Bulb LED E27 7W -Transparent Electric cable 1,80 m - Size : 40 x 40 x 40 cm

CYLINDER READING LAMP

Polyethylene cylinder covered with faux-shagreen protection in varnish - Surface in golden brass, thickness 2mm or in eggshells inlays or in faux-shagreen. Light source Bulb LED E27 7W -Transparent Electric cable 1,80 m - Size : 16 x 36 cm

CYLINDER READING LAMP

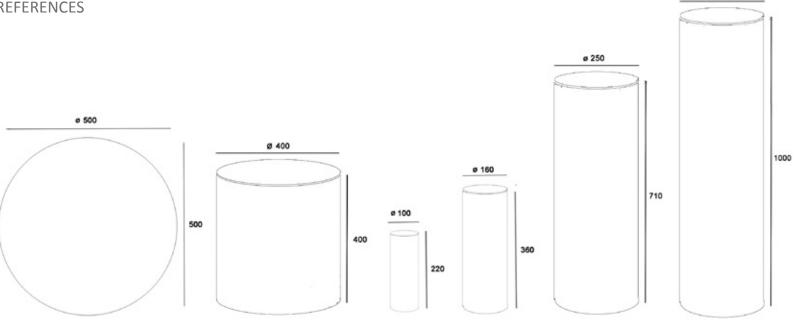

Polyethylene cylinder covered with faux-shagreen protection in varnish
Surface in golden brass, thickness 2mm - Light source Bulb LED E27 7W -Transparent Electric cable 1,80 m - Size : 10 x 22 cm
